

Newham CCG Publication Scheme

Who we are and what we do

How we fit into the NHS structure

The CCG was created on 1st April 2013 and is responsible for planning and buying (commissioning) healthcare on behalf of our local population taking over this role from the old Primary Care Trust. Separately NHS England is responsible for commissioning primary care (such as GPs and pharmacists) as well as specialised commissioning.

Procurement and tendering procedures

It's important that the services which the CCG commissions are underpinned by robust procurement exercises to ensure that the quality of those services are achieved, maintained, in order to facilitate greater choice for our patient population and to secure best value for money with public resources.

In order to support these aims, we are currently in the process of developing a comprehensive procurement strategy although you can view our procurement policy at [Our Procurement Policy](#)

Details of contracts currently being tendered

In line with our obligations under EU procurement legislation, NHS Newham CCG routinely publishes the details of the contracts we put out to tender using the following websites:

- I. [Official Journal of the European Union](#); and
- II. [Contracts Finder](#)

List and value of contracts awarded

NHS Newham CCG routinely publishes a list of all contracts awarded by the CCG, along with the values of those contracts on its website at;

Reports by regulatory organisations e.g. Care Quality Commission and NHS England

In this section of our publication scheme we will publish the details of any reports issued by regulatory organisations.

NHS England has specific responsibility under the Health and Social Care Act (2012) for CCG authorisation and assurance. To this end, they make an annual assessment of CCGs each financial year and publish a summary report. In addition, NHS England also oversees

those CCGs which have been authorised subject to conditions. Any relevant publications in this respect can be found on the [NHS England website](#).

A high number of our provider organisations in their capacity as clinical service providers will be subject to the regulatory oversight of the Care Quality Commission (CQC). The CQC is set up with responsibility for making sure that care provided by hospitals, ambulances, care homes and other clinical service providers meet government standards of quality and safety. Any reports published by the CQC can be found on the [publications section of their website](#).

Audit reports delivered at board / governing body level

Copies of any audit reports delivered to our Governing Body will feature in [the Meetings of The Governing Body section](#) of our website

Service User Surveys

We want to involve our patients and wider population in the decisions that we need to make about commissioning the right services for the people living in Newham. On [the Current Consultations section](#) of our website, you will find information about current consultations and engagement events that are going on.

<https://www.engage.england.nhs.uk/>

Privacy impact assessments (in full or summary format)

A privacy impact assessment (PIA) is an important tool which the CCG uses to identify and reduce the privacy risks that might be associated with our projects and / or policies. When we begin work on any such project or policy, we make sure that this is supported by a robust PIA to identify any privacy risks at an early stage, and to manage these appropriately.

For reasons of practicality, we are not intending to publish the details of any PIAs that we have conducted. PIAs very often touch on sensitive material (e.g. IT infrastructure), some of which may be exempt from disclosure under the Freedom of Information Act (2000).

Notwithstanding this, you are welcome to make a written request for details of any PIAs conducted by the CCG. Written requests for information should be made to:

Internal communications guidance and criteria used for decision making i.e. process systems and key personnel

Under this heading we are required to publish the details of any internal instructions, manuals and guidelines which we utilise for dealing with the business of the CCG. In so doing, we will limit these only to those which we consider will assist public understanding of the way decisions are made in the CCG. You can expect to find any such documents to appear on [the News and Publications section](#) of our website.

Our policies and procedures

Policies and procedures relating to the conduct of business and the provision of services

Charging regimes and policies

There is no charge for any documents downloaded from this site but they are subject to copyright laws. Where hard copies are requested a charge will be made for communication costs (for example photocopying, postage and packaging). There will be a charge, in line with national recommendations, for copies of personal records under the Data Protection Act.

The Freedom of Information Act allows the CCG to charge for communication costs. The CCG is not obliged to comply with a request for information if the CCG estimates that the cost of determining if they hold the relevant information, locating and retrieving the information and, where necessary, extracting the information from a document would exceed the 'appropriate limit' as defined by the FOI Act.

The appropriate limit has been set as a figure of £450.00 for CCGs. This figure is calculated at a rate of £25 per hour and therefore any request that exceeds 18 hours of work could be refused. In such cases the CCG has the option to refuse the request, charge the full fee or waive the fee. If the requestor agrees to pay the fee, payment must be received in full before work begins to gather the information.

Lists and registers

In this section of our publication scheme, we will outline any information held by the CCG which is currently maintained in lists or registers.

Governing Body Register of Interests – you can expect to find any copies of our Governing Body's latest register of interests published [here](#).

Disclosure log – in line with best practice guidance from the Information Commissioner's Office, NHS Newham CCG will shortly begin publishing our responses to Freedom of Information requests which we consider to be of a wider public interest in a disclosure log. You can expect to find our disclosure log on [the Freedom of Information](#) section of our website in due course.

Expenditure over £30,000 – in line with guidance from HM Treasury, we publish the details of any expenditure which exceeds the value of £30,000.

<http://www.newhamccg.nhs.uk/aboutus/expenditure.htm>

Risk registers – our Board are frequently presented with risk registers for our organisation, principally the Board Assurance Framework (BAF), in order that they can critically examine

the effectiveness of the CCG's internal controls. Copies of any such risk registers will feature on [the Governing Body Meetings](#) section of our website.
